

Feedback & Input: Surveys, Task Force & Advisory Groups

In preparation for effective planning in each key area of work, it was critical to receive feedback from our families and teaching staff regarding their experiences during school closure in the spring and feedback on concerns and needs as we plan for the fall with a lens of continuous improvement.

Families and staff were surveyed June 5 through June 19, 2020:

- ▶ [Family Survey – 554 participants](#)
- ▶ [Teacher Survey - 40 participants](#)

Family Survey - focused on seeking feedback on their overall learning experience, connectivity/technology, student engagement, social emotional well-being, and feedback on what improvements could be made for the fall, and what are the greatest concerns with returning to school for the 20-21 school year.

Teacher Survey - focused on seeking feedback on instructional barriers and obstacles faced during the closure, student engagement, student instructional support, communication with students, staff and leadership, and overall well-being.
